- Specie - Oak
- Box size: 36"x 6"x 6", 17.0 lbs
- SKU # 11116

Rolled-out floor mats (RollFloor) are a simple and effective solution to cover uncomfortable areas with eco-friendly wood mini-deck. Our Indoor/Outdoor rugs are made with outdoor rated and environmentally safe thermo-treated American hardwood (known as thermowood) protected against decay for 25-years.

Floor mat RollFloor is a 100% Green wood product - we do not use any chemicals to protect the wood fiber - timber becomes naturally protected and looks like mahogany by proprietary high-temperature treatment in special chambers. To create our floor mats we fasten thermo-treated wood planks together with ecologically friendly EPDM backing rubber strips, which are weather durable and as a result our wood rugs are non slip on ceramic, cement or wood floors.

Indoor/Outdoor rugs RollFloor are used to cover any flat surface with a much more comfortable natural wood floor (mini-deck). The applications of our area rugs are: bathrooms rugs, patio mats, RV outdoor rugs, outdoor runner, pool decking, basement and porch rugs, on balconies, old deck cover as deck tiles, door mats, pathways in your garden - use them as permanent or temporary solution, as mini-decks or area rugs, outdoors and indoors.

Use our floor mats on top of concrete, ceramic tiles, grass, old decks, sand, boardwalks, even on top of carpet and hardwood floor.

- RollFloor rug is non-slip on any surface, like ceramic, cement or wooden floors, and does not leave marks.
- Use them as indoor/outdoor rugs: as RV outdoor mats, as indoor bathroom rugs, in the garden, or on a balcony – in any environment our product performs perfectly.
- Put one floor mat next to another to make a desirable length runner and any width floor mat.
- Thermo-treatment makes wood durable for 25-years with no any chemicals (100% "Green" product) – you can step barefoot on our roll mat – use them as bathroom rugs.
- Thermo-treated wood has a natural brown mahogany or walnut-like color through out all of its depth - this makes scratches invisible.
- RollFloor indoor/outdoor rugs are easy to cut to any specific length.
- Easy to roll-in and keep it in vertical or horizontal position for storage.
- RollFloor rugs are light weight (just 7 lb.).
- 6 in. x 6 in. x 24 in. when RollFloor wood mat is rolled-in.
