

## September, 2007

Westwood Heat Treated Lumber Corporation and Keim Lumber Company signed the Agreement for starting the first in the USA WESTWOOD Thermo-treatment kiln at Keim Lumber facility (Charm, OH 44617). Keim Lumber Company will distribute thermo-treated lumber to their area customers and for export.

Keim Lumber Company is a family owned business that has served Holmes County, Ohio, and the surrounding area since 1911. We are a full service home improvement center offering a wide variety of products and services for our customers. We are a partner with Do-it Best which gives us the buying power to keep our prices low.

We also have our own mill to make custom doors and moldings to fireplace mantles and anything in between.

Keim Lumber leads the way with green building products. Download a brochure of our [newest technology High Temperature Thermo Treated Wood](#) here as well as a brochure for [Thermo Treated Decks & Sidings](#).
